

CHANGYONG PARK

Seoul, Republic of Korea
(+82) 10-4470-2364◇ qkrckddy0@yonsei.ac.kr

EDUCATION

Yonsei University

Mar 2022 - Present

Major : Statistics, Mathematics, Economics (Triple Major)

GPA: 4.22/4.3

Main Coursework : Advanced Calculus I, Linear Algebra I, Abstract Algebra I,

Mathematical Statistics I, Mathematical Analysis I/II, Differential Geometry, Scientific Computing,

Probability Theory, Stochastics Process, Reinforcement Learning, Information Theory

EXPERIENCE

Undergraduate Research Assistant, DIL lab

Oct 2025- Present

Advised by : Prof Jongmin Lee

Research Interest : Reinforcement Learning, Sobolev Training

Mandatory Military Service, ROK Army

Feb 2024- Aug 2025

Served in a front-line GOP unit, handling imagery and military intelligence tasks.

PROJECTS

Factor Quant Trader using Reinforcement Learning

Aug 2025- Sep 2025

Implemented a dynamic factor investing strategy using a Soft Actor-Critic (SAC) reinforcement learning model to optimize portfolio weights and maximize risk-adjusted returns.

ACTIVITIES

Head of Academia team, Data Science Lab, Yonsei University

Sep 2025 - May 2026

Directed academic programs on advanced data analysis and artificial intelligence. Spearheaded industry-academia collaboration initiatives, successfully leading strategic meetings and securing partnerships with LG AI Research and BC Card AX team.

Member, Yonsei Computer Club, Yonsei University

Sep 2023- Dec 2023

Studied and practiced core topics in machine learning and SQL through team-based workshops and coding exercises. Applied fundamental algorithms and database queries to small-scale projects, strengthening data analysis skills.

TALKS, PRESENTATIONS

Math for Machine Learning (Invited Speakers), Data Science Lab Yonsei

Jan 2026

Presented an in-depth lecture on the integration of Information Theory, General Topology, and Statistical Learning Theory in the context of machine Learning.

Reinforcement Learning (Invited Speakers), Data Science Lab Yonsei

March 2026

Presented a basic concept of reinforcement learning

SKILLS

Programming Languages and Frameworks

Python, Matlab, SQL, $\text{\LaTeX}$

Languages

Korean(native), English(fluent), Japanese(elementary)

AWARDS AND SCHOLARSHIPS

Highest Academic Excellence Award , Yonsei University

Feb 2023, Aug 2023

Awarded for outstanding academic performance

Academic Excellence Award, Yonsei University

Aug 2022

Awarded for outstanding academic performance

Guwon Scholarship, Guwon Scholarship Foundation

Aug 2025

Awarded for outstanding academic performance and research potential
